

**REMARKS**

The title is amended. Claims 1-7 and 65-88 remain in the application.

In the Examiner's Amendment which accompanies the Notice of Allowance and Issue Fee(s) Due (Form PTOL-85), the Examiner indicates that the title is amended to read "A Method of Forming a Conductive Line Having Opposing Sidewall". However, the title of the invention as shown in the Form PTOL-85 is entered as "A Method of Forming a Conductive Line Having Opposing Sidewall--Instead". It is believed that the last part of the paragraph in which the Examiner indicated the amendment to the title, namely, "-- instead", was erroneously picked up as part of the title when the Form PTOL-85 was printed. Accordingly, it is respectfully requested that the title as it appears on the Form PTOL-85 be amended to delete "--instead", thus making the title that actually intended by the Examiner.

Also, the Related Patent Data section has been amended merely to add the U.S. Patent Number of the parent application.

Entry of the above amendments is urged.

Respectfully submitted,

Dated: 3-14-05
